

My Resume

Expertise

UX Developer (2017 - Present)

Specialized in creating user-friendly interfaces and improving digital product usability.

Led multiple UX projects from concept to delivery with focus on accessibility and performance.

Front-End Developer (2016 - 2017)

Built responsive websites and interactive web applications using modern JavaScript frameworks.

Collaborated closely with designers and backend teams to ensure seamless integration.

UX Designer (2015 - 2016)

Designed wireframes, user flows, and prototypes to enhance user interaction.

Conducted usability testing and implemented feedback into design iterations.

Education

B.E in Computer Engineering (2017 - Present)

Focused on software development, system design, and human-computer interaction.

Participated in several academic and industry-driven tech projects.

Diploma in Computer Engineering (2016 - 2017)

Gained practical knowledge of programming, networking, and database systems.

Completed capstone project focused on web-based systems.

High School Degree (2015 - 2016)

Emphasis on science and mathematics with early exposure to computing concepts.

Skills

HTML5 & CSS3, JavaScript, PHP, SQL, UX/UI Principles, Responsive Design
